

RANGE

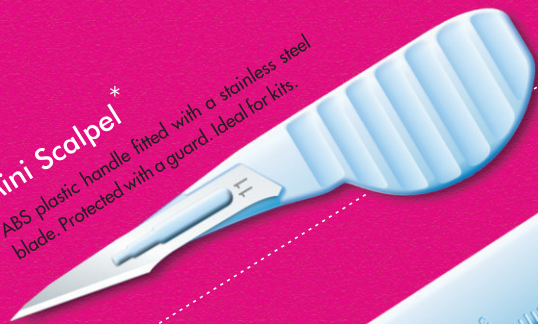

With more than 5 decades of supremacy in the Indian market, the Surgeon range of Surgical Blades, disposable scalpel and stitch cutter have made their presence felt globally. Today, over 80 countries bear testimony to the excellent quality and superior performance of our products, both under the Surgeon brand as well as is private label (OEM). While attempting to realise our dream of becoming the largest and finest producer of surgical blades in the world, we are providing excellent value for money.

By creating innovative new products and improving the quality of our existing portfolio, we consistently strive for excellence. Towards this end we are ISO 13485: 2016 and CE certified. The overall product quality, with special emphasis on sharpness, has been improved by over 30% and independent tests have confirmed that the sharpness of our blades are better than most leading blades.

A new patented range of Safety Scalpels was launched during Medica 2017 offering greater safety, with clearly printed instructions and Cap safely locked in ship & pass position.

Mini Scalpel *
ABS plastic handle fitted with a stainless steel blade. Protected with a guard. Ideal for kits.

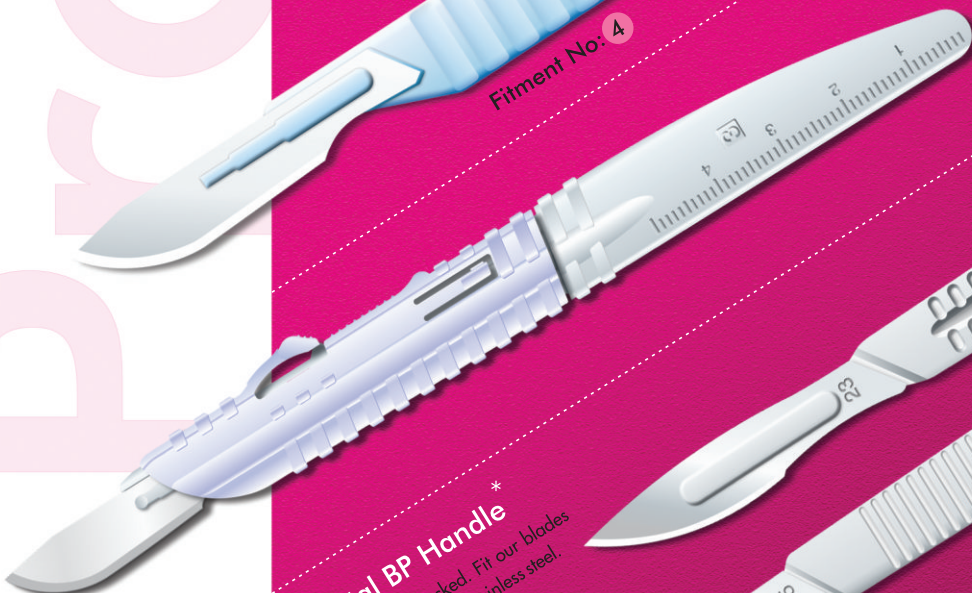

Disposable Scalpel *
Sturdy ABS plastic handle with removable plastic guard provides protection. Sizes 10, 11, 12, 15, 20, 21, 22, 23 & 24.
